

REMARKS

The foregoing Amendment and remarks which follow are responsive to the Advisory Action mailed May 13, 2010 in relation to the above-identified patent application. In that Advisory Action, the Examiner maintained the previous objection to the Specification due to the marked-up and clean versions of the Abstract as presented in the prior Amendment of May 6, 2010 not being provided on separate pieces of paper.

By this response, Applicant has presented a marked-up version of the Abstract of the subject patent application on one page, and the clean version on another as requested by the Examiner. Accordingly, Applicant respectfully submits that the Examiner's objection to the specification has been overcome.

On the basis of the foregoing, Applicant respectfully submits that the present application is now in condition for allowance. Additionally, Applicant respectfully submits that the present Amendment does not raise new issues which would require further searching on the part of the Examiner, and therefore respectfully requests that the same be considered and entered by the Examiner. An early Notice of Allowance is therefore respectfully requested.

If any additional fee is required, please charge Deposit Account Number 19-4330.

Respectfully submitted,
